

**Journey to College**  
**It's Never**  
**Too Early**  
**To Plan for College and a Career**

# Where will your journey lead?

**Getting an education is more important than ever before. Although you won't apply to college until high school, there are many things you can do to be ready when the time comes. In fact, you can start preparing now for the future, by making a plan!**

# Make A Plan

## Discover your interests

Take classes, volunteer, and join in activities that you are curious about. Once you know what you like, you can explore careers that match up.

Ask yourself questions, like:

- Do you like helping people?
- Do you like working with your hands or designing new things?
- What are some things you're good at?
- What have you found that's really interesting or exciting to do in school or after school?

Look for summer camps that relate to things you like to do. Try job shadowing! Job shadowing is following someone while they work so that you can learn more about their job. Try interviewing people who have careers you find interesting. Explore all kinds of jobs to get a good feel for what you like most.

## Know Your Goal

There are many ways to continue learning after high school, spending some time researching them and find out what path will lead you to your dream job.

**Become a  
Registered  
Apprentice**

**Attend a 4-year or  
2-year College or  
University**

**Complete a  
Professional  
Certificate**

**Missouri ranks third in  
the nation for active  
apprenticeships. Start your  
apprenticeship journey at  
[MoApprenticeConnect.com](https://MoApprenticeConnect.com)**

## Establish Good Habits

Choices you make now can help you succeed in high school and prepare for college. It's important to adopt good habits early on.

**1 Spend time  
reading**

**2 Pay  
attention  
in class**

**3 Learn how  
to budget**

**4 Practice  
being on  
time**

**5 Learn how  
to study**

Check out these helpful  
study hints!

# Make The Grade /

College graduates with a bachelor's degree earn \$1.2 million more in a lifetime, on average, than those without a degree.

**Source: U.S. Bureau of Labor and Statistics 2023**

Being the best student you can be will help you get into college and succeed once you're there. Take school seriously and learn as much as you can. Getting good grades or practicing a skill can create more chances for scholarships and give you more choices for where you could attend college. Working hard now will pay off in the end.

## Know Your Options /

It's okay if you don't know what you want to be when you grow up. There are a lot of careers to choose from, and more are being created every day. Now is a good time to learn about the types of jobs available. Find some careers you might like by interviewing people with different jobs in your area.

### You can ask the following questions:

- What is a typical workday like?
- How do you use technology in your job?
- What type of education is necessary for this job?
- What do you like most about your job?

**Find more interview questions, and other helpful info at:**  
<https://dhewd.mo.gov/publications.php>

### Make the Most of School

# Parents, Think About College Now

**It's never too early to start thinking about higher education, and you are the most influential person in your child's life. Talk with your children about their hopes and dreams. Learn their motivations, and help them develop skills and hobbies they can use in the future. Once they reach their final year in high school, they will be ready to make some important decisions about the kind of education they'll need to achieve their goals.**

## **The benefits of college**

Each year, more jobs require education beyond high school; however, not every career requires a four-year college degree. Continuing education beyond high school to any level is important. More education is often tied to:

- Lower unemployment rates
- Higher pay
- Better health care benefits

## **Paying for college**

Higher education doesn't have to be out of reach due to cost. Degree and certificate programs come in a range of prices, depending on the type of school students choose and the financial aid they receive.

Missouri has many affordable higher education options. The cost to attend college at numerous Missouri schools can be found at [dhewd.mo.gov/data/tuitionandfees.php](https://dhewd.mo.gov/data/tuitionandfees.php).

Federal and state grants, scholarships, work-study, and loans are available to a majority of students to help pay for college. The U.S. Department of Education and the state of Missouri offer millions of dollars in financial aid to students each year.

# Advance Your Career /

87% of undergraduate students receive some form of financial aid.

*Source: The Integrated Postsecondary Education Data System (2020-2021)*

## Saving for college

Start saving for college as early as possible. You can watch your savings grow while your children grow. Money saved through **MOST 529** — a state-sponsored college savings plan that offers tax advantages — can be used for college tuition, certain housing expenses, books, supplies, and other qualifying higher education expenses. Find out more at [Missourimost.org](https://Missourimost.org).

It's never too early to start planning, but it's also never too late. If you're interested in continuing your education, there are financial aid options available. Check out [MOFastTrack.com](https://MOFastTrack.com) to learn about a grant to help Missouri adults earn their certificate, degree, or industry-recognized credential. It's never too late to be a role model.

## Student Stories

**Khushi**  
**Rockhurst University**  
**Major: Undecided**

To prepare myself for college, I took Project Lead the Way courses to learn more about different careers and the areas I was interested in. It was a lot of hands on learning.

**Xzavier**  
**Lincoln University**  
**Major: Computer Science**

I plan to be a software developer or do cybersecurity. Explore your options! You don't have to have your major decided. Being on a college campus gives you the opportunity to meet new people and be involved in campus activities.

**Alli**  
**University of Missouri Columbia**  
**Major: Childhood Education**

I prepared for college by first getting good grades in high school. College is a great opportunity to grow academically and personally."
